Arithmetic and Other Branches Necessary to Development of Student's Propriety Discussed; Teacher Says

Teachers of Connellsville and Dunbar ownership turned on in force this morning for the opening session of the institute of the combined school districts held at the Connellsville high school auditorium. The members of the two facilities are evidencing much interest in the sessions, which are very interesting. The public is extended an invitation to attend a tend the meetings there being many subjects which would interest them and would also give an insight into what is being done by the school for the children.

A slight change in the program was necessitated when word was received from Dr. Francis H. Creer, department of English of the West Chester normal school, that he would be unable to attend on account of the death of a son. Orion I. Lowe, assistant county superintendent of the Allegheny county schools, is taking the place of Dr. Creer today. Friday and Saturday his part of the program will be carried on by Dr. Charles Rose, principal of the state normal school at Fairmont, W. Va., an institute teacher and instructor of not. It will be the first appearance of Dr. Rose in Fayette county.

The exercises this morning were focused by talks on various subjects by three educators dealing directly with the relationship of the teacher and student and essentials of education.

Dr. I. B. Peirce, superintendent of public instruction of the state of Ohio, said what he wanted to do was to get the teachers to understand what goes into the subjects in the course of study. What you do not know, he asked them. Are you simply trying to get the boys and girls over the page? Do you think simply turning out education. When those boys and girls graduate what qualities would you have them possess? If you would like me to do it, I would be well to make those objectives the goal of your education. You can go the equivalent of about going through an hour a graph and grammar. If you want to do it, it is not the equivalent of what they have, it is attained through that course of life. People can be going to the same school, but they are not. That is to say, the boy can learn arithmetic and the girl can learn something more inspiring to higher goals. It is not due to make our aspirations to fill him.

The Ocean City Project is the project of Dr. H. W. Ware, the director of psychology of the University of Pittsburgh, its address to the public in proportion to what people can do and it is necessary in proportion to giving a certain amount of time to the boy. A man can't make a living, he declared, without something to bring out his own special talents.

He also pointed on the scene of a portion of the education to mental health in the boy. A man can't make a living, he declared, without something to bring out his own special talents.

Mr. Lowe gave an interesting account on the history of his school in the past 25 years. He related how the police did not go to the school to do the trials of the present day, but the school was a real place in some of the new problems at the school, the school was not able to do the health of the student.

The program of his in the school on began with the singing of America, the large audience of teacher and interested persons in the auditorium. Rev. Buckner, pastor of the Christian church, conducted the exercises.

Instead of a solo at this session, the institute teacher was featuring his own music, song books were provided and led by Superintendant H. J. E. of Somerset county, the audience sang. There are many who are the soloist.

After the completion of the general program this morning, the principal performances were held in the auditorium. Teacher of Grades from No. 1 to 12 were all dressed in the South Connellsville school board. Mr. DeBoit has been a resident of the borough for 16 years and his departure is regretted.

Scott Klingensmith Better. Scott Klingensmith who has been at the College State Hospital under treatment is improving and will be able to leave in a few days. His condition is improving. He also wrote an imperfect developed a new book and why.

The meeting today was presided over by R. H. Smith, superintendent of Dunbar schools.

Delaine Man

Hugh Crowley foreman at the plant of the Broad Ford Coal company near Broad Ford was run down by a frightened horse at the plant yesterday and so injured that it was necessary to remove him to the Cottage Hospital. The horse which trampled him was the same one which recently roughly treated Joseph Laporte of Adelaide.

Mr. Crowley whose home is on the West Side was walking down the charging track with his back to the horse which was drawing a charging wagon when it suddenly bolted knocking him down and trampling him. He suffered a broken collarbone, a puncture of the cheek in juries to the eye and his forehead and to his back. Mr. Crowley is a son of Mr. and Mrs. Matthew Crowley with whom he makes his home.

Mr. Laporte who is recovering from his injuries was run down in a similar manner while the horse was pulling an ash cart. He too was faced the direction the equine was going.

On a Compromise Railroad Bill Which
Gives in Anti-Strike Provision

By Associated Press

WASHINGTON, Feb. 5.—An agreement will compromise the difference on proposed legislation for regulation of the railroads after their return to private ownership under the provisions of the Cummins bill, which organized labor had made such vigorous protest, has been the most definite step toward a compact agreement. This understanding was reached yesterday in the joint committee having charge of the measure.

For the anti-strike provision in the joint conference committee of the two houses agreed to substitute what in effect amounts to compulsory submission of wage disputes to a federal board, appended by the Preident.

On the Phases of the Railroad Trainmen's Increased Wage Demands

By Associated Press

WASHINGTON, Feb. 5.—Railroad administration officials and representatives of the railroad unions are in agreement on the high cost of living demands of the more than 900,000 workers are still apart on practically all angles of the wage questions. The union heads, headed by Director-General Hines and his staff yesterday after which they were in conference alone, neither Mr. Hines nor any of the workers' representatives would discuss the day's events. There were indications however the sessions would extend over several days.

Residents from Their Homes

By Associated Press

OCEAN CITY, Md., Feb. 5.—The fury of a northeast storm which set in Friday last, continued unabated today. Water front residents were obliged to leave their homes.

Three summer cottages have collapsed and a fourth, a bungalow on the ocean front, was expected to escape

a like fate.

MUST CLEAN WALKS

Police Will Make Arrests Without Advance Notice, They Say

The city police are going to go to the streets, just 24 hours notice required by law, in which to have their sidewalks cleared of snow and then they will make arrests of any offenders they say.

The officers are not going to notify any persons to clean the walks that are, and will make arrests without any hesitation.

From Confluence. Wife Also Is Ill
But Improving

Influenza claimed its first victim in Connellsville this year when Clyde A. Reid, 3 years old, Baltimore & Ohio railroad brakeman, died this morning at 7 o'clock at his home, 111 Crawford Avenue. Mr. Reid was stricken with the mumps 16 days ago. His wife, who also is ill of the disease, is recovering.

Mr. Reid was a son of Mr. and Mrs. Alexander Reid of Confluence and was widely known in that community. He had been a resident of Connellsville since last November. Four years ago he was married to Miss Edna Younkin of Confluence. In addition to his widow and parents he is survived by two brothers, James and Edgar Reid, three sisters, Isabelle and Marcia, a home and the other married and residing in Pittsburg.

Mr. Reid's body was removed to Funeral Director Charles F. Mitchell's parlors and prepared for burial. Tomorrow morning the remains will be taken to Confluence for burial.

Stamp in Storage Yards Due to Fall
of European Demand

By Associated Press

NEW YORK, Feb. 5.—Victims of the high cost of living were given cause for general chucking today when market reports showed that eggs center price in cold storage down 10 cents a dozen were being thrown on the market at prices ranging downward from 45 to 50 cents wholesale.

In many places they were being stampeded at 1 cent and the stampede was reported to have affected the fresh egg market, bringing prices down eight cents in a single day. The decrease in cold storage eggs was explained as being due to the fact that the expected European demand for eggs did not fully develop.

SICKNESS DELAYS WRIGHT-METZLER CO. DELIVERIES

Convenience of Patrons Asked; Orders
Taken During Sale to Be Delivered
Soon as Possible.

With the annual Sale of White at the Crawford avenue store and a great
sale of groceries celebrating the opening
of the new market in the North Pittsburg
street store, Wright-Metzler
company found itself seriously handicapped in its deliveries Thursday by
the illness of drivers and salespeople.

However, every effort is being made
to care of all orders which must
go out and it is hoped to overcome the
present difficulties shortly.

Meanwhile, patrons will be con-
cerned a favor on the firm
which will be appreciated if they can
include their day's purchase in a
single order or if, wishing to take ad-
vantage of the unusual bargains in
white goods or groceries, they will
leave their orders for future delivery.

No limit is set on the quantities
one will be facilitated if patrons will
call off Crawford avenue store's ex-
clusive instead of trying to get the
new store direct.

It is regretted that the tie up of the
delivery system came just now to
complicate the service from the new
market, where the salesforce was
swamped under a rush of orders at a
time when, if any, knew exactly
where their stocks were located.

Owing to delay in the installation of
the direct lines to the new North
Pittsburg street store, telephone ser-
vice will be facilitated if patrons will
call off Crawford avenue store's ex-
clusive instead of trying to get the
new store direct.

THURSDAY EVENG., FEB. 5, 1920.

EQUAL HONOR TO ALL VETERANS.

In the attention and honors we have so gladly, willingly and with one accord paid to the young men who formed the American Expeditionary Forces in the World War, we have rather overlooked the fact that we have all the while had in our community a group of men who bore with equal credit to their country the honor of forming a very conspicuous part of the first land fighting force the United States ever sent overseas.

The function of the Veterans of Foreign Wars, who met last night on the anniversary of the Philippine Insurrection 21 years ago, will remind us of what these still comparatively young men did in an earlier period of our country's need. They just as eagerly responded to the call to duty in 1898 as the younger veterans did in 1917. While the hazards of a trip to France, in 1917, and 1918, were greater, in that much of the journey was through waters infested with enemy submarines, the adventure across the broad reaches of the Pacific in 1898 was at that time quite the most remarkable ever undertaken by American soldiers.

In the far-off Philippines they did not have to meet a war which had spent 40 years in making preparation for war, its chief industry, but in a strange land and climate they were confronted by dangers the Boys of '98 were not called upon to meet. They braved these, as well as the guns of two enemy forces in succession, with the same calm courage as the members of the A. E. F. faced the more modern death-dealing devices of the Huns in France. They conquered both and returned home after a transcontinental ovation unparalleled in the history of the country.

In this expedition which carried the flag almost half way around the world, a number of young men gave their all with that same devotion to duty, and with the same love of country, that had prompted their fathers to make the supreme sacrifice in '61-'65. They thus handed down to the Boys of '98 the example and inspiration of patriotism which has been so magnificently exemplified by our soldiers in all our wars.

While we have on F so recently joined with a grateful nation in honoring the younger of our veterans, we must not forget—that the fathers of many of them and the grandfathers or some of them have the right of seniority to that designation. We must not be partially in its bestowal. Equal honor to all of them.

AN OPPORTUNITY FOR MILTON BISHOP POST.

Further evidencing his interest in the matter of complaints against the Bureau of War Risk Insurance, called his attention to the "Courier's" editorial comments, the editor of the Pittsburgh Post has written "another letter to the editor." In this communication he pays a deserving compliment to Milton LaFayette Bishop Post of the American Legion, Connellsville, and suggests that it give another example of its willingness to do things worthwhile by calling upon Congress to authorize an investigation of the Bureau of War Risk Insurance with a view to bringing about a change in its unsatisfactory and inefficient methods of doing business. The letter, referred to follows:

Following your lead I wrote in the enclosed editorial in today's issue of the Pittsburgh Post. I hope to follow the lead of others. I expect to speak with others, particularly national and state leaders of the American Legion, and I hope to arouse public sentiment to a point where Congress will be compelled to take some action to remedy matters. Your editor states that the gall in motion in the American Legion organization of Allegheny county.

Can't you get Milton LaFayette Bishop Post of the Legion to do something? It made little difference by its campaign to have Armistice Day celebrated on a national holiday. It evidently is easier to sit rather than to stand. It seems to me that it would be worth its attention to have the Bureau of War Risk Insurance shot down at a disadvantage. Why not if it is permitted to pass a resolution, say, calling upon Congress to investigate the Bureau of War Risk Insurance, with a view to ascertaining why it does not meet the test of reason and justice to the insured, and makes so many mistakes in its insurance policies?

Strong action is necessary to correct the disgraceful condition that obtains in the Bureau.

Milton LaFayette Bishop Post having shown itself to be alert in all matters of interest and importance to ex-service men, we believe it will regard the suggestion offered as an

opportunity to add to the distinction it has already acquired as a live wire organization.

If the Internal Revenue Department were just as zealous in requiring a return of the "Missing Nine" barrels of hooch it's got in requiring a return of income tax, the crop of rumors relating to the whereabouts of the former would be very much reduced.

With the books filled with orders and the pay-envelope made fuller by an advance in wages the Silo family ought to be entirely happy and content these days.

The revelation of Soviet "Ambassadors" in Paris and the Greek Ambassador's demand for a loan to the Soviet cause in Europe is not surprising when it is remembered that the chief mission of this agency at the "Winter Capital" was to tell everything except what the people needed to know.

It is all very well, and quite polite, for the new premier of France to say that he is impressed with the representations of the American government to the return of the soldiers home. But what will impress America's actions, not words. We have had too many of them here at home without having a further supply imported from France.

The Clown Prince and other prominent Germans who were so eager to get to Paris in 1918 and 1919 are soon to be advanced to the rank of nobility. But what will impress America's actions, not words. We have had too many of them here at home without having a further supply imported from France.

LET 'ER GO GALLEGER!

Let 'er go Galleger! isn't it queer? That's the name of a man that does work around here.

PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowel and liver with Dr. Edwards' Olive Tablets the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull listless "no good" feeling, constipation, torpid liver, bad digestion, etc., etc.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 10c and 25c.

Chronic Constipation.

There are people who never have a movement of the bowels without it is produced by a cathartic. Most of them have brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease they are meant to relieve. A mild laxative tonic like Chamberlain's Tablets affords a gentle movement of the bowels that you hardly realize has been produced by a medicine, and their use is not so likely to be followed by constipation.—Adv.

Loss to Connellsville Is First in Four Games; Pritchard, the Scoring Guard, Closes Only Two Out of Seven of Attempts; Game Is Interesting.

Connellsville won over the Dunbar township high school basketball aggregation on the local gymnasium last night, 30-25. The game was in favor of Connellsville throughout the Coopers always maintaining a lead of between four and seven points.

The Dunbar township defeat is the first loss by that team this season. Connellsville was off form somewhat in shooting, missing some easy goals and then coming back strong in the tight places and saving some hard ones. At the close of the first half the locals led 18-13.

Some pretty passing was exhibited at times by both teams. Just a trifle too much of this was a fault with the locals last night instead of shooting. At this opportune moment a forward would make an extra pass of ten resulting in the loss of the ball.

The shot plowed a deep and painful furrow in the lion's side arousing all the bestial fury of the little brute but stabbing not a whit the power and vigor of the great body.

Unwounded the brutes and the flames might have turned him back, but now the pain and the rage wiped caution from his mind and with a loud and angry roar he topped the barrier with an easy leap and was among the herbs.

What had been pandemonium before became now an indescribable tumult of hideous sounds. The stricken horse upon which the lion leaped shrieked out its terror and its agony. Several about it broke their teeth and plunged madly about the camp. Men leaped from their blankets and with gouts ready ran toward the picket line and then from the jungle beyond the boom—a dozen lions were boldened by the example of their fellow, charged fearlessly upon the camp.

Amidst the crackling of the flames and the growls of the carnivores rose the death screams of stricken men and horses as they were dragged down by the blood-cats. The leaping carnivores and the plunging horses prevented any concerted action by the Abyssinians—it was every man for himself—and in the melee the defenseless woman was either forgotten or ignored by her black captors.

A horse struck by a stray bullet fell beside Jane Clayton. A lion leaped across the expiring beast, full upon the breast of a black trooper just beyond. Gaping fangs closed with a single sickening crunch upon the fear-dotted face and the lion sprang back across the body of the dead horse dragging his limp and bloody burden with him.

Wide-eyed the girl stood watching. She saw the carnivores step upon the corpse, scrabbling at the grisly things swing between its forepaws and her eyes remained fixed in fascination while the beast passed within a few paces of her.

The interference of the boy seemed to enrage the lion. He shooed it inanimate clay venomously. He growled and roared hideously at the lead, in senseless thing, and then he dropped it and raised his head to look about in search of some living victim upon which to wreak his ill temper. His yellow eyes fastened themselves balefully upon the figure of the girl. The bristling lips raised, disclosing the glistening fangs. A terrific roar broke from the savage throat, and the great beast crouched to spring upon the now helpless victim.

Quiet and fallen upon the camp where Tarzan and Werper lay securely found. Silently and powerfully the ape-man strained at the bonds which fettered his wrists.

The muscles knotted beneath the smooth brown skin of his arms and shoulders, the veins stood out upon his temples from the force of his exertions—a strand parted another and another and one hand was free. Then from the jungle came a low rumural and the ape-man became suddenly a silent, rigid statue with ears and nostrils straining to span the black void where his eyesight could not reach.

Again came the uncanny sound from the thick verdure beyond the camp. The sentries drew close together, watching the black spot from which the voice seemed to come.

They dared not approach. Their terror even prevented them from arousing their fellows—they could only stand in frozen fear and watch for the fearsome apparition they momentarily expected to see leap from the jungle.

Now had the long to wait. A dim bulk form crept lightly from the branches of a tree into the camp. At sight of it one of the sentries recovered command of his muscles and his voice screaming loudly, to awaken the sleeping camp he leaped toward the flickering watch fire and threw a mass of brush upon it.

ECZEMA ON BABY CUTICURA HEALS

In Rash Over Head and Side
Of Face, Itched Badly.

When eczema broke out on baby, it came in a big way. All over his head and face. The itching got so bad he would scratch, and it would get a large burn and spread. He was very cross and fretful.

I got cake of Cuticura Soap and a box of Cuticura Ointment. It was so long before I had dried up the skin, I used a cake of Soap and one and a half boxes of Cuticura and it is healed. (Signed) Mrs. Ralph Morrow, Pittsburgh, Penn. July 23, 1919.

Prevent Further Skin Trouble
By Using Cuticura Daily

It is possible to prevent these many distressing skin troubles of childhood by using Cuticura Soap and no other for every day's toilet and nursery uses as soap, toucher of Cuticura. Ointment as needed. Think of what it means to go forth into the world handicapped by a disfiguring skin trouble.

Don't let your babies get rashes. Take an especially selected face soap and baby powder. Cuticura Soap shaves without a scratch.

The flames leaped high upon the rejuvenated fire lighting the entire camp and the awakened men shrank back in superstitious terror from the sight that met their frightened and astonished vision.

A dozen huge and hairy forms leaped large beneath the trees at the far side of the enclosure. The white giant one hand free had struggled to his knees and was calling to the frightened nocturnal visitors in a hideous medley of bestial guttural barking and growlings.

Growlings the great apes leaped forward toward Tarzan and Werper. Chalk led them. The Belgians called to his men to fire upon the intruders but the negroes held back filled as they were with superstitious terror of the hairy tree men and with the conviction that the white giant who could thus summon the beasts of the jungle to his aid was more than human.

Drawing his own weapon the other fired and Tarzan fearing the effect of the noise upon his resty mind friends called to them to hush and finally his commands. Chalk had a hand down their waddled rapidly forward and following the ape-men's directions seized both him and Werper and bore them off toward the jungle.

By dint of threats reproaches and threats the Belgian officer succeeded in persuading his trembling command to fire a volley after the retreating apes. A ragged straggling volley it was but at least one of its bullets found a mark for as the jungle closed about the hairy rescuers Chalk who bore Werper across one broad shoulder staggered and fell.

As Chalk went down he dropped Werper so that the latter fell face downward with the body of the up-lying half across him. In this position the Belgian felt something rasping against his hands which were still bound at his back—something rasping against his hands which were still bound at his back—something rasping against his hands which were still bound at his back—something rasping against his hands which were still bound at his back—

RHEUMATISM LEAVES YOU FOREVER

Tea-seated Eric Acid Deposits Are Dissolved and the Rheumatic Poisons Starts to Leave the System Within Twenty-four Hours

Eric is the sure conqueror of rheumatism. It does not stop at agony, reduces swollen joints and do away with even the slightest twinge of rheumatism. It will gladly return your manhood with a smile.

Allenbros relates at once. Immedately after you start to take it the good work begins. It sears out the uric acid deposits, dissolves the secretions and drives the rheumatic poison out of the body through the kidneys and bowels.

Eric acts so quickly it acts blessed relief often comes in two days in severe cases where the suffering is most painful all traces disappear in a few days.

Mr. James H. Allen, the discoverer of Allenbros who for many years suffered the torment of acute rheumatism, does not want a cent of unsound money unless Allenbros decisively conquers his worst of all disease and has instructed the Connellsville Drug Co. to guarantee it in every instance—Adr.
